

# Defoamer TM 118

- Stops foam build-up in recovery tank from previous cleaning products
- Protects extractor vacuum motor
- Reduces recovery tank emptying

## Description:

Prevents foam build up in extractor machine recovery tanks.

## Applications:

Car Wash  
Used Car Reconditioning  
Retail Detailing

## Directions:

Shake well. For use in recovery tank only. Pour ½ ounce of Defoamer per gallon of capacity into the recovery tank or enough to cover the bottom. If foam or suds persist, add more Defoamer into recovery tank. Never put into the solution tank.

## Tip:

Pour Defoamer down the pickup hose of the extractor to help keep foam from forming as the spent solution is picked up

## Packaging:

- 4/1 Gallons Per Case

Complies with VOC regulatory restrictions
